

CURRICULUM VITAE

PERSONAL INFORMATION

Name: Yvonne Mukabera
Date of Birth: 21 January 2003
Address: Nyarugenge, Kigali City, Rwanda
Phone: +250 793 835 394
Email: mukabera255@gmail.com

PROFESSIONAL SUMMARY

Motivated Computer Engineering student at the University of Rwanda, specializing in Software Engineering, with a growing focus on backend development and modern web technologies. Experienced in designing and developing full-stack applications using Java, Spring Boot, React, Django, MySQL, and PostgreSQL, with practical knowledge of RESTful APIs, database design, authentication, and software architecture. Currently expanding my backend expertise in JavaScript, Node.js, Express.js, PostgreSQL, and microservices while building real-world projects. Passionate about writing clean, maintainable code, solving real-world problems, and continuously learning modern backend technologies.

EDUCATION

Bachelor of Science (Hons) in Computer Engineering
University of Rwanda – Nyarugenge Campus
Specialization: Software Engineering
September 2024 – October 2028

TECHNICAL SKILLS

Backend Development

- Node.js (Learning)
- Express.js (Learning)
- Java
- Spring Boot
- Python
- Django
- RESTful API Development
- Authentication Fundamentals (OAuth2 & JWT)
- Microservices Fundamentals

Frontend Development

- HTML5
- CSS3
- JavaScript
- React

Databases

- PostgreSQL
- MySQL
- Database Design
- CRUD Operations
- Data Modeling

Version Control & Tools

- Git
- GitHub
- IntelliJ IDEA
- Visual Studio Code

UI/UX

- Figma
- Wireframing
- Prototyping
- Responsive Interface Design

PROJECTS

Authenticated Product Management System
Java • Spring Boot • React • PostgreSQL

- Developed secure REST APIs for product management.
 - Implemented authentication and authorization.
 - Connected backend services with PostgreSQL.
 - Built responsive frontend using React.
 - Applied layered backend architecture.
-

E-Commerce Microservices (In Progress)

Spring Boot • PostgreSQL • Microservices

- Building independent backend services.
 - Designing REST APIs.
 - Working with Service Discovery (Eureka).
 - Implementing Inventory, Product, User, Order, Payment, and Notification services.
 - Learning scalable backend architecture and service communication.
-

Personal Expense Tracking System

Java • Spring Boot • Thymeleaf • MySQL

- Built backend logic for expense management.
 - Designed relational database schema.
 - Implemented CRUD functionality.
 - Connected frontend with backend services.
-

Student Management System

Java • Spring Boot • Thymeleaf • MySQL

- Developed backend modules for managing students.
 - Designed database relationships.
 - Implemented CRUD operations.
-

Soil Tracking System

Python • Django • MySQL

- Developed backend functionality for agricultural monitoring.
 - Managed environmental data storage.
 - Built dashboards for data visualization.
-

Personal Portfolio Website

HTML • CSS • JavaScript

- Designed and developed a responsive personal portfolio website.
-

PROFESSIONAL EXPERIENCE

Digital Skills Support Intern

DTP Rwanda

October 2025 – January 2026

- Assisted learners using the DTP Rwanda learning platform.
 - Guided students through programming fundamentals.
 - Supported practical software development sessions.
 - Demonstrated coding exercises and digital skills.
 - Helped learners understand software engineering concepts.
-

Office Assistant

ES Sancta Maria Karambo

September 2023 – January 2024

- Printed, photocopied, and scanned official documents.
 - Prepared teaching materials.
 - Assisted with office administration and document management.
-

CERTIFICATIONS

- Software Development Certificate – DTP Rwanda
- UI/UX Design Certificate – KLab TechHer Online Courses
- IT Essentials – Cisco Networking Academy
- Teaching Assistant Certificate – IEE Rwanda
- HTML Certificate

- CSS Certificate
 - JavaScript Certificate
-

ACHIEVEMENTS

- Second Place Winner – DTP Hackathon 2025 (Citizen Engagement System Prototype)
 - Developed multiple full-stack software projects using Java, Spring Boot, React, Django, MySQL, and PostgreSQL.
 - Currently building a microservices-based e-commerce system to strengthen backend engineering skills.
-

INTERESTS

- Backend Development
 - Node.js & Express.js
 - REST API Development
 - Microservices
 - Cloud Computing
 - Database Systems
 - Software Architecture
 - Artificial Intelligence
 - Open Source Technologies
 - Continuous Learning
-
